

FOR IMMEDIATE RELEASE:

Tahoe Seating's Growth Demands New Manufacturing Facility for 2008

Tahoe Seating, of Carrollton, Texas, announces move to new manufacturing facility due to consistent growth.

When asked about the consistent growth and upcoming move, Adam Cox, Principal of Tahoe Seating, said, "We have been frugal over the past 5 years staying in a smaller facility as Rick and I believe in taking small, fiscally responsible steps, but the limited space began to hinder our productivity. The new manufacturing facility is twice the space, conveniently located and a cleaner presentation for our dealers and reps. The move was well overdue, the transition was seamless, and our Manufacturing Director never missed a beat in production."

"Just look at me, 6'7" and 300 lbs, bigger is better!" said Rick Neverdousky, National Sales Director of Tahoe Seating. Mr. Neverdousky also concurred with Mr. Cox stating, "with some anticipated growth in commercial markets, this space is greatly needed."

Tahoe Seating's hair on hide and cowhide furniture is hand built per order and inspected at every production point during manufacturing, making this a true custom built product. Available from our e-commerce site and authorized Tahoe Seating dealers in North America, customers should allow 4 to 6 weeks for delivery from order.

As the manufacturer, Tahoe Seating offers custom cowhide furniture and seating, hair on hide furniture, southwest furniture and fine southwest style furniture through e-commerce and our network authorized dealers. Tahoe Seating's Collection cowhide furniture, hair on hide furniture and fine southwest furniture has leather grades from the world's finest tanneries. Tahoe Seating's manufacturing facility is based out of Carrollton, Texas just North of Dallas.
